

I am very interested in keeping K-Love on the air my local area on FM 91.9 as I find it very uplifting. As I live in a rural area I (along with many others) commute to work daily and find that listening to K-LOVE is soothing. I would be sorely disappointed to find that it had been replaced as I have come to rely on it being there for comfort when needed. Some people connect with the notes and lyrics of music while others don't and those who don't may not understand the need of the others to be able to hear the music that speaks to their souls. I tell everyone I know about K-LOVE and what a wonderful station it is. I work three counties away from where I live and in my commute to work, I see people with K-LOVE bumper stickers on their vehicles in every county. From this evidence it would appear that this station does make a difference! Not only in my soul but to scores of others that choose to spread the word that K-LOVE is worth every penny the listeners donate. If my monthly donation helps someone feel comforted in their soul or brings someone to know the love of Jesus, it is well worth it! You would be remiss in stopping the ministry of this station in this area.
